

RE: Air1 radio station

I support this radio station with monthly donations because it has made a significant impact in my life. I listen online when I'm at work and to the radio station when I'm in the car or at home. This is a station that we can listen to in the presence of our children and we don't have to worry about foul language or inappropriate comments. There are not enough of these stations around. In addition, this keeps our eyes focused on God. If more people in the world did this, we would not be in the situation we are in today. There is too much violence, and verbal abuse everywhere you go. It's nice to have something uncorrupt that we can count on.

Thanks,
Susie Miller
